*Hi there!
I'm Hillary Holt*

I'm an Australian artist, illustrator, and surface designer, now based in beautiful Barcelona. Using modern watercolor techniques, I hand-create illustrations and patterns for products with bright, vibrant colours, inspired by the natural world, botanicals & pop culture.

I love to create art that celebrates the things we enjoy and connect with each other over- a sneaky dessert, an epic travel adventure, the beauty of nature, the humorous personality of animals. It's these things that I want to share with the world through the art on our walls, the products we use, and the gifts that we give.

Let's Make Something Amazing Together!

I'm so glad you've made it here, I really appreciate your time.

What is Fibre Based Fiction? In short – it's art! Starting with pigment on paper. Part life and part imagination.

Inspired by memories of the Australian coast, travel and the creative energy of my adopted city, following trends and recognising the difference between fine art and commercial product design.

I hope you enjoy my work. Questions? Comments? I can't wait to hear from you!

Fun Facts about me

HOW DID I GET STARTED?

I started out as a graphic designer and art director specializing in visual branding and editorial design. It's where my love of storytelling was born.

DRINK OF CHOICE?

Café con leche de avena, gin & tonic or a mojito

FAVORITE STUDIO MUSIC?

London Grammar, Ludovico Einaudi, Coldplay or the conversation in the bar below my apartment

FAVORITE COLOR?

Veridian or Opera Rose

BEACH OR MOUNTAINS?

Beach, always!

FAVORITE FESTIVAL IN CATALUNYA?

Sant Joan. Bonfires, the start of Summer, running through the streets with fireworks – what could possibly go wrong?!

MOST EXHILARATING MOMENT?

Apart from my first licensing deal, it would have to be surfacing after my first night dive on the outer Great Barrier Reef. There we were floating in the sea, in the middle of absolute nowhere, no lights except for our torches and the stars. It was also the first time I saw a shark under water!
